- ~/
 - This is your home directory. It is hosted on LIBR's 2.4PB Dell Powerscale storage environment. This means any change you make in your home directory on one analysis server will occur on all of the others. Your home directory cannot exceed 100GB.
- /media/labs
 - This is where all of the lab directories are located. You should place any source, intermediate, or post-processing data related to a study in a lab directory.
- /media/scratch
 - This is a scratch directory hosted on the Dell Powerscale. Data put here will be purged after 30 days from their last modified date.
